DQE COMMUNICATIONS™

Internet Pro

Business Internet
That Won't Let You Down

Built for businesses who've outgrown "good enough."

✓ **Symmetrical Speeds**

✓ **100% Fiber**

✓ **Managed Wi-Fi**

✓ **24/7/365 Local Support**

You started with broadband because it worked. Now it doesn't. Internet Pro gives you the speed and stability to keep up — with your own fiber line, pro Wi-Fi, and local support that actually picks up the phone.

Better Internet Pro from DQE

- **Dedicated Bandwidth** – A connection that is yours alone, no slowdowns from the business next door

- **Symmetrical Speeds** – Uploads as fast as downloads for video calls, file sharing, and cloud backups

- **Managed Wi-Fi** – Pro-installed Wi-Fi that just works, from back office to front desk

- **Intelligent Routing** – Smarter paths, fewer outages. Internet Pro routes around trouble before you even notice

- **Performance Monitoring** – You'll know before there's an issue. Real-time alerts via your Customer Control Center

- **Local Support** – In-house engineers available 24/7/365, based here, not offshore

Who We Serve

GROWING BUSINESSES

As your business takes on more users, tools, and data, we deliver dedicated fiber that won't buckle under the weight of your growth

SMBs READY FOR AN UPGRADE

You've outgrown cable speeds and shared circuits. Internet Pro gives you a cost-efficient way to step up without overbuying

MULTI-SITE TEAMS

Running multiple sites doesn't need to mean managing multiple vendors. We connect you on one reliable network, backed by a unified team

Tested. Trusted. **Reliably Reliable.™**

100% owned fiber backbone with self-healing ring architecture (<50ms reroute). This isn't marketing speak — it's peace of mind.

5,000 route miles, 3,350+ on-net buildings, and coverage across key business parks and data centers

Secure connections to leading cloud providers (AWS, Azure, Google), and regional colocation hubs

Why DQE

Not the Biggest. Just the Most Responsive.

We're not a cable company pretending to be business-grade. We were engineered for reliability from day one — and now we're scaling that same performance and responsiveness to power growing businesses like yours. When you call, we answer. When there's an issue, we're on it. When it matters, we show up.
